

Accelerating Knowledge Transfer

Highlights

- Onsite Training Curriculums
- Virtual Instructor-Led Classrooms
- On-Demand Training Catalog

Overview

Developing high performance digital applications that push growing workloads with lower latencies requires a next-generation database that has features to enable your speed and scale requirements. The accelerated knowledge transfer arms clients with the enhanced skillsets and understanding of best practices to help growing and managing a distributed database.

Aerospike Academy leverages our team of product experts for training engagements and knowledge transfer sessions to quickly get your team up to speed and cut down the learning curve. Our curriculums and catalog of courses are designed for the needs of your developers, architects and site reliability engineers. All materials are available through onsite, virtual instructor-led classrooms, and on-demand courses.

Key Features

Aerospike Academy has three different options that can be used in any combination to meet the needs of your teams.

Onsite Training Curriculums

- Aerospike expert trainers provide requested curriculums over a 3 or 4-day onsite engagement
- Courses include 50% lecture and 50% hands-on labs using Aerospike Cloud Foundation resources
- Student-to-instructor ratio is recommended at 15 students: 1 Aerospike expert trainer

Virtual Instructor-Led Classrooms

- Virtual classrooms led by an expert Aerospike trainer over a 1 or 2-day engagement
- Content is 50% lecture and 50% hands-on labs using Aerospike Cloud Foundation resources
- Student-to-instructor ratio is recommended at 20 students :1 Aerospike expert trainer

On-Demand Training

- Catalog of courses available as on-demand streams and new courses are added with Aerospike releases and new features
- Students with a Training Seat can take courses an unlimited number of times
- Aerospike Technical Certification exams is available to all students

About Aerospike

Aerospike is the global leader in next-generation, real-time NoSQL data solutions for any scale. Aerospike enterprises overcome seemingly impossible data bottlenecks to compete and win with a fraction of the infrastructure complexity and cost of legacy NoSQL databases. Aerospike's patented Hybrid Memory Architecture™ delivers an unbreakable competitive advantage by unlocking the full potential of modern hardware, delivering previously unimaginable value from vast amounts of data at the edge, to the core and in the cloud. Aerospike empowers customers to instantly fight fraud; dramatically increase shopping cart size; deploy global digital payment networks; and deliver instant, one-to-one personalization for millions of customers. Aerospike customers include Airtel, Banca d'Italia, Nielsen, PayPal, Snap, Verizon Media and Wayfair. The company is headquartered in Mountain View, Calif., with additional locations in London; Bengaluru, India; and Tel Aviv, Israel.
